

Member's Representations.

Sri S. M. KRISHNA (Maddur).—Before the Finance Minister makes a motion for the consideration of the Reports of the Public Accounts Committee, I would like to bring it to Chair's notice that it was understood that we were going to debate the distress situation in our State.

Mr. SPEAKER.—I am considering it.

REPORTS OF THE PUBLIC ACCOUNTS COMMITTEE FOR 1959-60 AND 1960-61.

Motion to consider.

Sri B. D. JATTI.—I beg to move :

“ That the Reports of the Public Accounts Committee on the Appropriation and Finance Accounts of the Government of Mysore for the years 1959-60 and 1960-61, and the Audit Reports thereon be taken into consideration.”

Mr. SPEAKER.—Motion moved :

“ That the Reports of the Public Accounts Committee on the Appropriation and Finance Accounts of the Government of Mysore for the years 1959-60 and 1960-61, and the Audit Reports thereon be taken into consideration.”

Sri S. SIVAPPA (Sravanabelagola).—Sir, before we take up the debate it was agreed on the floor of this House that the debate on the food situation would be taken up today.

1-30 P.M.

Mr. SPEAKER.—I am attending to it. Members will have it much earlier.

Sri S. SIVAPPA.—It was specifically stated by this House and we were only awaiting the arrival of the Chief Minister from Delhi so that he could give full information. Now that the Chief Minister has come, this should be given top priority.

Mr. SPEAKER.—If the Leader of the Opposition is a little patient, I should like to say that I was more anxious than anybody else. When this question came up, I observed the other day that there were adjournment motions, short notice questions, etc., and that when this subject was already set down for debate, such things as adjournment motions, etc., were not necessary and that every attempt would be made to have the debate as expeditiously as possible. In fact, it was also mentioned that there was the Deputy Commissioners' Conference and that after hearing them it would be more useful to get full information. I am going to suggest that we may have it tomorrow immediately after this
